**Statutory multiplications**

By the time the children finish Year 4, they should be able to recall all multiplication and division statements in the 2, 5, 10, 3, 4, 8, 11, 6, 12 and 7 times tables (multiplication within 6 seconds) to achieve 'working at the expected standard' in Maths. Throughout the year, we will practise during our four times a week Multiplication lessons. On a Friday, we will check the children's knowledge during our independent lesson. Please support your child by practicing the weekly multiplication and division statements at home for a minimum of 10 minutes every day.

**Year 4 Multiplication Check**

The multiplication tables check (MTC) is statutory for primary schools. The purpose of the MTC is to determine whether pupils can recall their times tables fluently. It will help schools to identify pupils who have not yet mastered their times tables, so that additional support can be provided.

The MTC will take place in June 2023 and will be administered on computers and ipads. The child will have 6 seconds to answer the multiplication statement and type the answer in. There will be no division statements in the check.

For more information, please visit the government website.

**TT Rockstars**

Please logon to TT Rockstars daily to practise the set multiplications. The 'garage' section is where your child will be able to practise the set mutliplcations for the week. Please also visit the 'soundcheck' section at least once a week to try out the mixed multiplications up to 12x12 with a 6 second time limit. This is very similar to the MTC that your child will be taking in June.
